New White Petticoats
Are Cut On Slender Lines

Flat, clinging effects, straight lines and the absence of bustle are features of the latest Petticoat styles; strictly tailored, they might be called. They are fashioned especially to be worn with the new lingerie gowns. Lace, embroidery, beading and ribbons are chief trimmings. You'll like the new styles for their daintiness. This week we show a dozen new models of nainsook, longcloth and fine muslin. Prices range up from \$1.25.

Latest Tub Goods Novelties

We call your attention today to another batch of lately-arrived Wash Goods Novelties; styles and textures you must see if you expect to keep posted in this important line.

45-inch Brocade Eponge, at \$4.50.
45-inch Openwork Bulgarian Crepe, \$4.50.
45-inch Hand-Embroidered Crepe, \$2.50.
45-inch Novelty Crepe, \$1.75.

HEADS LIST OF
WATER BUYERS.San Fernando Valley Reaches
for Aqueduct Slice.Committees from All Towns
Working in Union.Irrigation District Plan Is
Unanimously Authorized.

The first definite step toward the purchase of aqueduct water from the city of Los Angeles was taken yesterday when an authorized committee of nine representing San Fernando decided unanimously to go ahead without delay with a plan to form an irrigation district for the purpose of issuing bonds to build the necessary pipe lines.

The San Fernando committee was elected at a meeting of the people of that town and empowered to take whatever action is necessary to secure water as soon as possible. The committee is composed of John Burr, F. M. Wright, H. C. Hubbard, P. L. Bonuff, E. L. De Remer, F. A. Powell, R. H. Hill, R. F. Wolfe and John T. Wilson. It is acting in conjunction with similar committees from Tropic, Burbank, Van Nuys and Owensmouth. The committee has begun its work by proceeding along the lines suggested in the report of J. H. Quinton, W. H. Code and Homer Hamlin, advisory engineers, to the Board of Water Commissioners. Several of the committees were in conference with their attorneys yesterday for the purpose of getting petitions regularly drawn in accordance with the report.

WHOLE VALLEY IN IT.
The Board of Supervisors will be asked to authorize a bond election, and as soon as the amount required can be determined the people will be given an opportunity to vote upon the question. According to the committee the whole San Fernando Valley is in favor of the plan, and little or no opposition is anticipated. While the San Fernando members

(Continued on Second Page.)

GREAT REAPER TAKES HIM.

Inventor Largely Responsible for Evolution of Cradle Into Modern Steam Harvester Dies Here.
S. Horace Roberts, one of the great inventors of harvesting machinery, who was largely responsible for the evolution of the cradle into the steam-driven reaper, died last night in his rooms at the Westonia apartments, No. 623 West Fifth street. He was 55 years old.

Many of the most valued patents in the harvesting machinery were given to Roberts for his ingenious improvements to reaping machines of the past. His name never became widely known, because he always remained in the background and left the exploiters of his inventions to receive the publicity. He realized a great fortune from his inventions. He had come from Illinois a few months ago.

NEW MAIL TERRITORY.

Postmaster Announces Districts and Streets to Be Served When Requirements Have Been Met.

In harmony with the announcement by the postmaster that there is to be a large extension of the local mail delivery service, that official said yesterday that such extensions will be made in the following territory as soon as the necessary requirements shall have been met, such as the correct numbering of houses, placing mail boxes, etc.

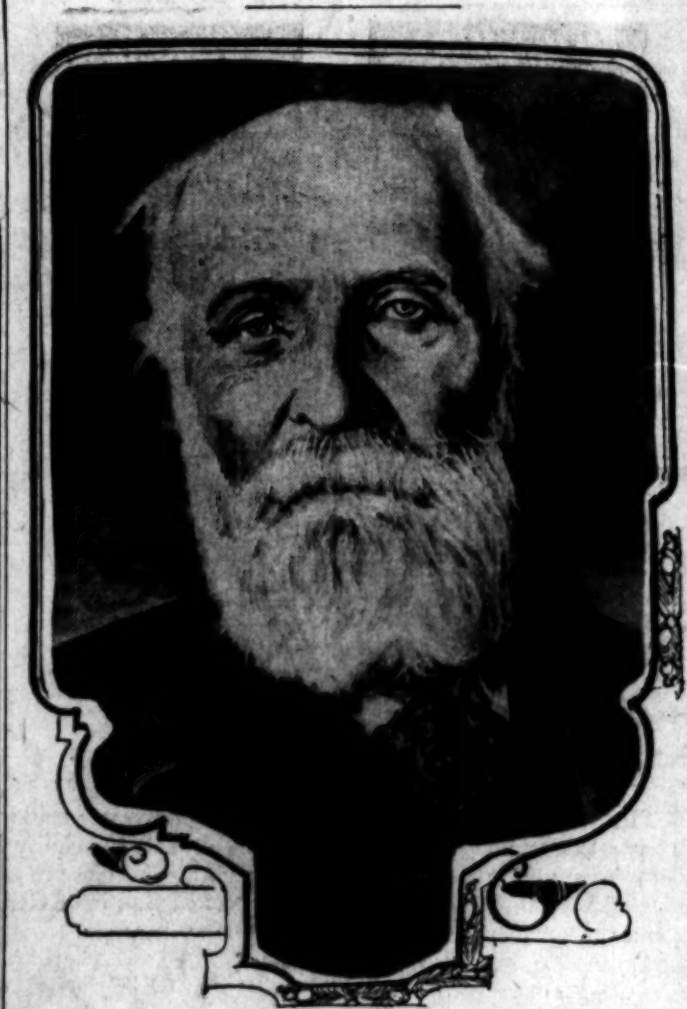

New Vermont-avenue square, territory bounded by Santa Barbara avenue, Arlington street, Vernon avenue and Western avenue; also Harvard boulevard, Hobart boulevard and La Salle avenue from Forty-first to Forty-third street; Leighton avenue from Western avenue to Wilton place.

Chesterfield square, territory bounded by Fifty-second street, Western avenue, Fifty-fourth street and Arlington street.

Rogers Park tract, territory bounded by Sixty-eighth street, Vermont avenue, Seventy-fifth street and Normandie avenue.

Wilshire district, Gramercy and Wilton places from Melrose avenue to Lemon Grove avenue; St. Andrew's, Manhattan and Wilton places, between Melrose and Clinton streets; Marhott and Monroe streets between Hobart boulevard and Western avenue; Powers street, between Melrose and Barrows streets; Cataline and Kenmore streets, between Melrose and Monroe avenues; Leeward avenue and Eighth street, between St. Andrew's and Wilton places.

Head of Six Generations.

CENTENARIAN CROSSES
THE CONTINENT ALONE.

Peter S. Morrison.

Who is six weeks over 100 years of age and who arrived in Los Angeles yesterday after traveling alone across the continent. He heads six generations in his family and all his children are living.

PETER S. MORRISON arrived in Los Angeles yesterday from Albany, N. Y., 100 years and 6 weeks of age, alone but hale and hearty enough to take in the whole city on foot. He registered at the Watauga.

"My children," he said, "did not want me to come West until they could accompany me, but as I had a little asthmatic trouble I told them that if I did not come on now, it would be a question of only a few years until they had no father."

Morrison is a contractor by profession, although he has not built a house with his own hands for two years. Shortly after his ninety-ninth birthday he found it necessary to wear glasses for the first time in his life, and this annoyed him so much that he left his business in Michigan and went to New York to live with his old son, who is 74 years of age. Morrison himself is now the oldest of a family which includes six generations. All of his eight children are alive and happy, and he has great-grandchildren.

He was the husband of one wife with whom he fell in love when she led him to school one morning at Burlington, N. Y. He was then 6 years of age and she was 10. His mother was left a widow when he

WIN CAMPAIGN
AT PRIMARY!Municipal Conference Sees
Victory Ahead.Busy Day Strengthens Shenk
and Stephens.Plans Complete for Meeting
at Auditorium.

Renewed efforts to arouse the voters to the necessity for electing Shenk and Stephens by a substantial majority at the primary made yesterday the busiest and most effective day of the campaign, winding up last night with a fully-attended meeting of the Executive Committee of the Municipal Conference.

Although the need of additional funds was emphasized, the members of the committee were more confident than ever, as a result of the day's developments, that their work will be ended and victory won when the primary ballots are counted. A preliminary canvass of voters disclosed the fact that both Shenk and Stephens have developed overwhelming strength in every section of the city.

The committee is now concentrating efforts in making preparations for the big meeting in the Auditorium next Tuesday night and in arranging to take care of the crowd. Stoddard Jess will preside and Shenk will make his big speech of the campaign. At that time he will discuss the platform in detail and outline his ideas on the duties and conduct of the city's chief executive.

Mrs. Andrew S. Lobingier, one of the most gifted and eloquent of the city's women orators, will discuss the campaign issues from the standpoint of the women voters, and address will be made by E. A. Meserve and others. M. D. Hurley, assistant secretary of the conference, will have charge of the arrangements under the direction of the committee. Prior to the meeting there will be a parade of thirty floats, bands, fire and drum corps and vehicles. The programme will be interspersed with musical numbers and instrumental music will be provided by an orchestra.

A great mass of literature was sent out from headquarters yesterday explaining the plan of organization of the conference, its purposes and pertinent facts concerning the candidates. This phase of the campaign will be pushed vigorously up to the day of the primary.

A TIP TO CANDIDATES.

Politicians will have to take to the woods if they want to make good with the women. At least the candidates for city offices before the forthcoming primaries may find it much to their advantage to present themselves at Sycamore Grove this coming Saturday at noon, when the members of the Woman's City Club will hold a joint picnic with other clubs to see the candidates and to hear them. The candidates need not carry their lunch, as it will be sold to them at 4c a plate, if they telephone the club secretary at 518 Hyde building any time between now and Friday afternoon for reservations.

A CALIFORNIA CANARD.

The colored voters of the city will hold a mass-meeting at Odd Fellows' Hall, Eighth and Wall streets, Friday night next under the auspices of the Taxpayers' Club of Furling Home tract.

A silly and futile effort to discredit Shenk with the colored voters has been made by the next Mayor's political enemies, who are circulating a story that Shenk, as City Attorney,

(Continued on Second Page.)

For New Campaign.

HUNDREDS OF MEXICAN
REBELS BOUGHT HERE.

AGENTS of the distracted rebel forces in Mexico have been feverishly busy in Los Angeles for two weeks conspiring the largest body of rebel volunteers that has ever left this city in organized order. The strictest secrecy has been maintained regarding their ultimate destination and the directing agency that is moving it.

"It is believed to be a reflection of a gigantic effort of the revolutionaries to recoup their falling fortunes and sweep south again until all Northern Mexico is in their possession. Messages of alarm were received from high officials in Mexico City yesterday mentioning rumors of the force being armed and prepared for war here."

Since the opening of the war Los Angeles has been the most active spot on neutral soil for the revolutionaries to plot and plan in with safety. The last effort that has come to a successful climax here is by far the greatest and most daring attempt.

Under the disguise of laboring Mexicans, a lieutenant in the rebel ranks arrived about two weeks ago, with four assistants, also holding rank in the army. Apparently they were returning to Sonora town after an absence in Arizona. They retained rooms the first night at a small Mexican rooming-house near the Plaza. The first day a hidden stir began to make itself felt. Under the direction of the lieutenant, the four assistants, with local aids, went up and down the streets making overtures to every able-bodied Mexican man to join the rebel forces.

Those who have been approached

CARELESSNESS
RESPONSIBLE.Jury Finds in Case of Man
Killed on Sidewalk.Victim of Automobile Had
Fear of Machines.Industry Indebted to Him as
Citrus Expert.

Killed by a carelessly driven automobile, the body of the late William Edward Lankester, prominent business man, manufacturer and citrus fruit expert, will be cremated this afternoon and the ashes interred at Evergreen Cemetery.

Although the coroner's jury yesterday returned a verdict finding that Lankester had been struck by an automobile driven by Joseph Marcell Anneschell, proprietor of the Mattot Grill, No. 2154 West Fourth street, and that Anneschell was "used to perfect driving," no arrest had been made in the case up to midnight.

Coroner Hartwell disposes of the matter by saying the tragedy was the result of an accident and that he will make no recommendations to the District Attorney's office as they do not feel inclined to act without such recommendation.

Lankester met a most violent and painful death last Saturday, lingering for several hours after having been struck, his body crushed, one leg broken, and his arms and shoulders a mass of bruises.

Anneschell's machine struck Lankester at Fourth and Main streets, the auto climbing the curb and pinning the victim against a building wall. Lankester had made it a habit to walk close to the building line on the streets, declaring that one could never tell when he might be struck by an auto.

Timeschall says a man stepped in front of his machine near Main, on Fourth street, and to avoid striking him he swerved the auto.

THE VERDICT.
After hearing the testimony in the case yesterday the coroner's jury returned the following verdict:

"We, the jury, find that William E. Lankester came to his death by reason of an accidental death following a crushing caused by being struck by an automobile driven by Joe Marcell Anneschell, carelessly driven, not being used to perfect driving."

Funeral services will be conducted over the remains by Rev. Mr. Brown of the Congregational Church at 3 o'clock this afternoon at No. 5323 Monte Pasadena avenue.

Lankester lived at No. 5323 Monte

(Continued on Second Page.)

Big Figures.

POWER CORPORATION
NOW HUNTINGTON'S.Turns Holdings in Large Gas Companies Over to
Associates in Return to Centralize His Southern Cal-
ifornia Interests—Deal Involving Concerns Capitalized
at Many Millions Closed in New York.

A PART of H. E. Huntington's plan to centralize his Southern California holdings along with his retirement from active business, a deal was consummated in New York last week whereby he turns over his holdings in the Southern California Midway Gas companies to William G. Kerckhoff and Allen C. Balch in return for their holdings in the Pacific Light and Power Corporation. The deal gives Kerckhoff and Balch the

controlling interests in the Southern California Gas Company, capitalized at \$10,000,000, and the Midway Gas Company, capitalized at \$2,000,000, while Huntington becomes practically the sole owner of the \$40,000,000 Pacific Light and Power Corporation.

Kerckhoff and Balch, accompanied by W. E. Dunn, a member of the executive committee of the Pacific Light and Power Corporation, returned yesterday from New York, but both refused to state the amount of money involved. The deal was made on the event of Huntington's departure for Europe.

According to a statement made last night by Kerckhoff the deal in nowise affects the status of control in the San Joaquin Light and Power Corporation, capitalized at \$15,000,000, further than to prestage a closer community of interest between this corporation and the two gas companies.

In connection with the transfer of interests, the Southern California Gas Company will reorganize with Kerckhoff as president, Balch vice president, L. M. Farnham secretary and A. E. Peat treasurer and controller. The offices will be removed from the Pacific Electric building to the Garfield building.

Kaspare Cohn of this city, A. Haak, San Francisco, and the banking firm of N. W. Halsey & Co., New York, Chicago and San Francisco, will be associated with Kerckhoff and Balch in the Southern California Gas and allied artificial and natural gas projects.

It is intimated that Kerckhoff, though no longer a stockholder in the Pacific Light and Power Corporation, will be retained as a member of the Executive Committee, because of his long familiarity with the company's problems. Balch has also been a member of the Executive Committee.

According to local rumor, the deal means a rushing of work on the Big Creek plant of the Pacific Light and Power Corporation, by which the Pacific Electric and the Los Angeles Railway Corporation will be assured of an abundance of power for many years to come.

As a result of the New York deal, the triumvirate that for twenty years has been most active in power promotion projects in Southern California is dissolved. It has been an open secret for some time that such a deal as this would be made. In fact, when Kerckhoff retired in favor of G. C. Ward as president of the Pacific Light and Power Corporation, it was considered imminent.

On His Merits.

WHEELER, OUSTED, ASKS PEOPLE TO JUDGE HIM.

City Council, by Vote of Five to Four, Confirms Action of Mayor in Removing Public Utilities Commissioner—Decapitated Official Declares He Has Been Greatly Wronged—Chief Executive Scored.

FREDERICK F. WHEELER is officially ousted from the Board of Public Utilities. The Mayor's action in removing Wheeler was confirmed by the City Council yesterday by a vote of 5 to 4. This followed one of the most dramatic sessions of the Council in many months.

At the very session that resulted in the confirmation of Wheeler's removal—action based on the Reed resolution—one member of the Council declared that he wanted to prophesy that Wheeler will be elected a Councilman and that he will take the very seat now held by the man who has brought about this action. He referred to Councilman Reed. He referred to Councilman Reed. He referred to Councilman Reed. He referred to Councilman Reed.

The vote was as follows: For confirmation of the removal, Bryant, Langdon, McKenna, Reed, Whiffen; against, Andrews, Betkough, Topham and Williams.

The hearing of the case was set for the afternoon, and almost the entire session was taken up by the Mayor's message removing Wheeler was read and Andrews at once challenged the position taken by the Mayor in removing him to the Council's action in sending him the Reed resolution. He declared it was an unfair use of the Council's proceedings.

FRIENDS AND FOES.
Topham insisted that Wheeler should have full and official knowledge of the charges made against him, and demanded the reading of the Reed resolution and the Wheeler letter, to which objection was raised. Wheeler was asked to make a statement. He replied that he was in the position of a defendant and that the charges should be substantiated before he is called on to reply.

This brought Reed to his feet. His summary of grievances against the president of the Utilities Board was that Wheeler had not repudiated publicly the use of portions of his letter by the power companies as an advertisement in the campaign against the power bonds; that the Council has had to return to the board a large portion of the recommendations for spur tracks, particularly since Wheeler has been on the board, but that they had not been sufficiently investigated or that the railroads could set anything that they wanted from the Utilities Board, and that Wheeler had personally urged M. E. Johnson to apply for a twenty-one-year franchise for a street railway rather than for one with the indeterminate feature.

WITH HANDS UNITED.
"I do not want to be elected to the City Council unless my views are known and my hands are secured," said Wheeler. "I never dreamed the power companies would cut out portions of my letter that are necessary in order that it might all be thoroughly understood and use the remaining portions as an advertisement. I did repudiate this action to representatives of the power companies. It did not occur to me to do this publicly in the one day at my command wherein I might have done so."

"I feel that you did me a great wrong when you passed that resolution to the Mayor. I was in this room ten minutes before that action was taken, brought here at your request for certain information, and while I understand all of you had the resolution before you, not one of the Councilmen mentioned it to me. I submit that I have been outraged and that you did me a great wrong, and the Mayor followed it up by issuing his message without giving me an opportunity to appear and explain my position. Nor has he at any time given me such opportunity."

In response to questions asked by Councilmen, Wheeler said that not long ago he told the Mayor of the possibility of his resigning, and the Mayor replied:

Would Buy Water.

(Continued from First Page.)

are at this time acting only on behalf of their immediate constituents, the plan upon which they are working contemplates a district comprising about 140,000 acres, to include San Fernando, Van Nuys, Encino, Glendale and other sections lying between the aqueduct outlet and this city.

They believe the formation of several smaller districts would involve an economic waste and might result in complications with respect to the use of the pipe mains. That the plan to organize one big district can be carried through is indicated by the spirit manifested at the meetings which have been held in the various towns and by informal expressions from leading citizens of Glendale and other towns.

KEEN COMPOSITION.
When the intentions of the San Fernando Valley people have been put into concrete form, estimates of the cost of building pipe lines will be secured, and the Water Commissioners will be asked to name the figure and the terms upon which this city will sell a part of its surplus water. This will fix the size and the bond issue, and a bond election will be the next step.

The attitude of the San Fernando people and the prospect that many other districts will soon ask for water effectively nulls the ridiculous assertion that there will be no market for surplus water unless the city spends several millions in preparing to deliver it. It is already evident that there will be keen competition for every gallon the city has for sale.

SMALL HOLDINGS.
The San Fernando men even fear that there may not be water enough to go around. They also recognize, since the recent bond election, that the people of Los Angeles do not propose to build distributing systems for outside communities. They want water and they are losing no time in going after it.

Following the preliminary steps by the San Fernando committee, a series of meetings, probably beginning next week, will be held in all the towns interested that the project in its entirety may be understood. It is proposed to spread the pay-

Driver Careless.

(Continued from First Page.)

Vieta street with a daughter, Mrs. John Reed. He was a member of the Merchants and Manufacturers Association and the Chamber of Commerce. He was a fertilizer specialist of Coast-wide fame and one of the best authorities in the country on citrus culture.

The auto victim was born in New York seventy-seven years ago. When but a child his parents took him to Cleveland, where he received his education in the public schools and later learned sign lettering. Grown to manhood he went to Chicago and there followed the lettering business until he finally located and married in Des Moines. His bride was Martha Van Houghten, daughter of a pioneer family.

Two children were born to the couple in Des Moines—Kitty and Carrie—and a third girl, Florence, was born at South Pittsburg, Tenn., where he took his family. Kitty is now the wife of F. C. Austin of No. 555 Kensington drive, Carrie is Mrs. James Manker of Mt. Vernon, Ill., and Florence is Mrs. John Reed.

In Tennessee Lankester was with the Southern States Coal and Iron Company. He went to Florida with his family and engaged in the real estate business and study of orange growing.

CARLOADS OF CITRUS.
After eight years in Florida, he came to California in 1898, locating at San Diego, and becoming interested in the citrus fruits. He made four annual trips back to Florida, returning each time with a trainload of grapefruit and lemon seed, stalks and buds. He amassed a considerable fortune out of this enterprise.

His wife died in San Diego and he came to Los Angeles in 1905 and became a traveling man for the Bradley Fertilizer Company. When that concern became part of the American Agricultural Chemical Company he was made manager, western representative and treasurer. It is a \$5,000,000 corporation and probably the largest of its kind in the United States. He held that position until his death, with offices in the Bulfinch building.

GETS POINTERS ON HARBOR.
Office heads and outside representatives waited on trade along traffic row yesterday while the desk men toured the harbor as guests of District Passenger Agent Brandt of the Pacific Coast Steamship Company. The party, consisting of thirty-three persons, went from here to Redondo Beach in a special Pacific Electric car. At Redondo Beach they boarded the steamer Governor, went to San Pedro and inspected the harbor. Dinner followed. The trip was planned to familiarize the desk men with harbor facilities, that they might give first-hand information of conditions to the traveling public.

R. A. Pabst and A. T. Petty are occupying a suite at the Alexandria. They are in the insurance business and have come here to visit local agents of the companies which they represent. Their headquarters are in San Francisco.

Well, I declare, here's that Little Koupon Kid again. I wonder what he's doing now.

DEFINES POSITION.

"I am informed that your honorable body have just fixed the hour of 2:30 o'clock today for the consideration of the communication from His Honor, the Mayor, announcing my removal. From the office of President of the Board of Public Utilities and inviting me to appear before you at that time and make any statement which I might desire."

"In response permit me to say: 'First—Public announcement has been made by the Mayor, through the press, that he was going to remove me and had Councilmen enough pledged to that course of procedure to enable him to accomplish his purpose. Until this morning I had expected to appear before your honorable body and make a statement, but all this has been so suddenly announced in the press, I can see no good reason why I should do so as the majority verdict is already made up. Second—I prefer to leave the one fact standing out naked and alone—that in the city of Los Angeles a public official can be charged with misconduct by a member of the Council, such charge can be transmitted to the Mayor, without the slightest investigation by the Council, and that the Mayor, without granting the accused an opportunity to be heard, can recommend to the Council his removal from public office, and that a majority of that body can actually be found ready to agree to such a procedure before the official has been heard."

"Third—I am a candidate for the next Council myself and, fortunately, the people will have an opportunity to pass upon my conduct, as well as that of several of your number, two weeks from today. I am more than willing to submit both my action and your action in this matter to them and shall cheerfully accept their verdict."

ments of the bonds over a period of forty years so that the distribution can be secured to the landowner at a reasonable annual cost per year.

Said F. A. Powell last night: "We believe we shall have no trouble in putting our plan through. The people of the valley are in favor of it and it will be advantageous to Los Angeles. Most of our land is in small holdings, having passed from the hands of the big corporations, who at one time owned much of it. The small owners want to make good, and they are willing to pay their share of the cost of getting water."

"The San Fernando Valley, under irrigation, will be a splendid place for Los Angeles. It will be able to supply all the truck the city can use and besides will become one of the city's most profitable customers."

OPPOSE SOCIALISTS.

Negro Voters in Planning Campaign Second Solid Against Any Radical Change of Conditions. Declaring its opposition to Socialism, the Independent Political League, one of the strong negro organizations of the southwest, in a large meeting at No. 428 Central avenue came out last night for the "business people."

President L. C. Luke addressed the meeting and asserted that "the time has not come for us to go back on our best friends. We all know who has been our worst enemy. Stand by the business interests of the city and go back to your various precincts ready to fight for all that is in you against any proposed revolution of conditions."

Every city in the precinct save two was represented. And the missing two was President Luke put it, "out of the black belt."

A. Pierson was elected chairman of the Executive Committee, and H. Mackey secretary.

The organization will hold two open meetings before the primaries, the dates and places to be settled on later. Candidates will be endorsed at the next meeting.

PASSES TO REST, HIS DUTY DONE.

BUILDER OF BIG WORKS ALONG COAST AND HERE.

Former Councilman, Noted as Construction Engineer, Dies in Retirement—Superintended Erection of Forts, Light-houses and Many Business Blocks.

Maj. Cyrus Willard, a former member of the City Council and a widely known construction engineer, died yesterday at his home, No. 1915 Estrella avenue.

When he reached maturity, Maj. Willard left his home in New Sharon, Me., and went to Boston, where he learned the builder's trade. In 1852 he went to San Francisco. He was one of the active engineers in the construction of the fortifications on San Francisco harbor, in the employ of the Federal government. Later he became a government lighthouse engineer and was commissioned to install the chain of lighthouses along the Coast from Point Firmin to Cape Blanco.

Then he was sent to Alaska to build a military post for the government. After being wrecked in passage to the North, and having endured terrible hardships, he came to Los Angeles in March, 1875. In partnership with James Wadsworth, he constructed the Nadeau Hotel, the gas works, the City Hall, the Bradbury building and the Bulfinch Block, with many other large buildings. He entered politics and became a member of the Council from 1886 to 1888. He was prominent in the Masonic fraternity.

Office heads and outside representatives waited on trade along traffic row yesterday while the desk men toured the harbor as guests of District Passenger Agent Brandt of the Pacific Coast Steamship Company. The party, consisting of thirty-three persons, went from here to Redondo Beach in a special Pacific Electric car. At Redondo Beach they boarded the steamer Governor, went to San Pedro and inspected the harbor. Dinner followed. rendered an opinion upholding discrimination against the colored people. The story, being wholly without merit, has required only a brief explanation of the facts to explode it. The decision was rendered at the request of the Police Commission relative to the case of a saloon-keeper who charged a colored man an extortionate price for a drink. An opinion, rendered by one of Shenk's deputies, held that the matter was entirely for the discretion of the Police Commission.

It was merely an interpretation of the law, no other opinion was possible, and it reflected no prejudice of intended discrimination against colored or any other class of people.

SOCIALISTIC VISITOR.
VENTURA, April 22.—Hon. Oddino Morgary, deputy for the second College in Turin, and a Socialist leader in Italy, was here yesterday, the guest of G. Ferro of this city. Mr. Morgary is on his way home to Italy after a visit in Japan, where he studied social conditions.

Brings Beauty to Young and Old
(Medical News.)

The universal objection to face powder is solved by the use of a fine lotion easily made at home by dissolving 4 ounces of aspirin (which costs little at any drug store) in 1/2 pint witch hazel (or hot water) with 2 teaspoonfuls glycerine added. This wonderful beautifier is very beneficial to the skin, because it prevents chapping, removes that shiny, oily, sallow look and adds beauty to any complexion. It does not show or rub off like powder, but, when on, seems part of the skin and gives a wholesome, charming tone.

Keep the scalp clean and beautiful hair will be the result. Shampoo with a teaspoonful of canthrox dissolved in a cup of hot water and dandruff, dust and excess oil disappear immediately and the hair will be ever so lustrous. Stuffy and healthy and the head will feel good. Canthrox acts as a natural tonic to the scalp and prevents falling hair and scalp-irritation. It is easy to use, costs little and can be obtained at any drugstore.—(Advertisement.)

"Message for You, Mister---Any Answer?"

This is a serious message, a message that deserves your

attention, whether it receives it or not. You know, there are some things that are mighty important in this life, that you and I pass up because we do not want to take the time to read just a few words.

Take my advice, read this advertisement. It will do you no harm and might do you a lot of good.

The Raymer Tract
Is the Finest Investment Opportunity Today

The RAYMER TRACT has every advantage that a shrewd investor could possibly demand. It enjoys excellent transportation facilities; it has a wonderful boulevard route to the city; its proximity is remarkable; its fertility of soil has never been questioned; it will raise anything that grows in this section; it lies close to a live, growing city; it is in the heart of the San Fernando Valley, which is admitted to be the richest part of Southern California. Furthermore, it is priced with judgment, inviting a quick and sharp advance for the investor.

Chalmers

"A Dependable Self-Starter"

Two years' satisfactory use on thousands of Chalmers cars has proved the Chalmers self-starter dependable.

Operating by compressed air—a well-understood, widely used principle in mechanics, the Chalmers starter is the simplest made.

An air pump, a storage tank and a button to push—that's practically all there is to it.

It contains no complicated parts, practically nothing to get out of order. It should require no attention except occasional oiling. It can be readily understood by anyone. There is nothing costly to be replaced in case of accident.

And the proof of the merit of the Chalmers self-starter is simply this: It starts in cold weather, in warm weather, when the motor is hot and when its cold. You can count on it.

Besides the self-starter, the Chalmers cars have all the other up-to-date motorizing conveniences—electric lights, demountable rims, four-forward speed transmission, carburetor dash adjustment, Turkish cushions, 11-inch upholstery.

And built into every part you will find Chalmers QUALITY—the result of Chalmers manufacturing methods.

Let us show you the Chalmers cars. Let us demonstrate to you the Chalmers self-starter. Please telephone or call.

This motor car stands for all you can ask in a motor car.

BETTER for ALL Baking

Globe A1 Flour

—Even a little girl ten years old has made splendid bread with "Globe A1." And she did it all by herself—no older person helping her.

—This is a pretty good test for "Globe A1" flour, and if a little girl can be so successful, surely an older woman can do even better.

—"Globe A1" is the flour for you. It is a successful flour in itself—it will be a successful flour in your hands.

—Use it for all baking—use it intelligently—and you'll have better bakestuffs. And you'll have more nourishment—more food value for your family. Tell the grocer to hurry up a sack to you today.

Artistic Player-Pianos

At Low Cost

A truly artistic Player-Piano, one that will satisfy the most exacting musician, that is capable of the very finest pianistic effects, that is extremely simple in its mechanism and its control, and, best of all, that can be sold on easy payments at the price of the better class of upright pianos, has long been the highest desire of the manufacturer, dealer and the music lover.

The Euphonia Player-Piano Price \$485

A splendid combination of player and piano, each up to the minute in design, appearance and musical quality, is the most notable accomplishment yet brought out to meet this great demand. The Euphonia Player-Piano is the product of one of the most celebrated American factories, The Cable Company, an organization noted for the merit of its instruments, the thoroughness of its work and its progressiveness.

By all means examine carefully, test fully this Player-Piano before your decision is made. You will be amply repaid. It is sold on very easy payments.

HEER, Crisp Swiss Embroideries— Arc 75c, instead of \$1 to \$2 the yard!

DESIGNED with the newness of Van Dyke points, Fillet effects and the French embroideries—these are lovely for fashioning into lingerie dresses and dainty undermuslins.

There are twelve to twenty-seven-inch flouncings, and three to ten-inch bands and galloons.

And 75 cents the yard—instead of the usual price of \$1 and to \$2.

SATIN Damask Tea Napkins— Show Worth While Price Reductions!

THEY are 15 and 18-inch napkins, and hemstitched. \$2.50 values are \$2 the dozen; \$4.50 values are \$3.50; \$3.50 values are \$2.75; \$5 values are \$4; and \$7 values are \$5.50! A splendid quality of shimmering, satin Damask—these Tea Napkins—and attractively patterned.

DAMASK and Huck Towels— They are Marked at a Saving!

THE 30-cent Damask towels are 20 cents; and the 65-cent Damask towels, both plain and fringed, are 50 cents.

Huck towels are 35 cents, instead of 50 cents, and 50 cents instead of 60 cents. And bordered Guest towels for 25 cents, instead of thirty-five. With the monogram, they're 30 cents instead of forty.

The Bissel Suction Cleaner; really vacuum cleans with less trouble and more quickly. Have it demonstrated for you.

Howard Dustless Mops; take up every bit of dust from hardwood floors and at the same time polish the floors without soiling your rugs.

J. W. Robinson Co.
Broadway and Third

A sale of embroideries!

SOCIETY AFFAIRS

Miss Lillian Le Poid.

Announcement of whose engagement to Ray Pollock, a young clubman.

THANKS to the irresistible charm of this season's girls, engagements of true interest will please members of the 486, between acts, during the next few weeks.

Today members of the younger set will enjoy to the full the news of the betrothal of Miss Lillian Le Poid, the attractive daughter of Paul Le Poid, of this city, who has promised to wed Ray Pollock of Los Angeles.

Miss Le Poid is enjoying her first real season. She was educated at Huntington Hall and St. Mary's and is a member of the Alpha Phi Phi Sorority, members of which just now are planning a fashionable Japanese tea party to be given at the home of Miss Minnie Mathias of West Eleventh street.

At the function which is scheduled for Saturday, Miss Le Poid will be one of the hostesses, together with the Misses Naomi Stinson, Ethel Stinson, Isabel Percival, Lulu Jones, Isadora Couta, Irene Combs and Kathleen Roberts.

Another engagement, and one which came from Stanford University yesterday is that of Miss Ruby May Kenney Heckler of St. Mary's, O., and Frank E. Barrow of Los Angeles. Miss Heckler is a transfer from the University of Indiana, a member of the Delta Gamma Sorority, and has recently been elected Phi Beta Kappa. Mr. Barrow is an assistant in the history department of the university.

Lovely Affair.
A lovely affair of May 1 will be the bridge-tee to be given at Hotel Virginia, Long Beach, by Mrs. Samuel Denholm, complimentary to Mrs. I. N. Richards, who will tour the world, leaving in September. The hostess will be assisted by her daughter, Mrs. J. J. Jenkins.

Mrs. Ryan Entertains.
Mrs. Terence E. Ryan, who will be remembered as Miss Estelle Johnson, daughter of Mr. and Mrs. Benjamin Johnson of Hobart boulevard, was hostess last evening at an informal dinner party, given at the Kensington. The young entertainer reserved covers for Frank Glicerist of Chicago, who, with his parents, is a guest at Hotel Maryland, and Miss Sally Folk, Clinton Merritt and Mr. Ryan.

Enjoyable Afternoon.
Iota Sigma Sorority of the University of Southern California spent an enjoyable afternoon recently at the home of Miss Marguerite Gebhardt of Garvanza.

Mrs. Wilson to Entertain.
Mrs. Erasmus Wilson of No. 7 Chester place will entertain members of the Los Angeles Chapter, U.D.C., of which Mrs. Samuel C. Dunlap is president, Tuesday afternoon.

Welcome to Rector.
Members of St. John's Episcopal Church gave a reception in the parish house last evening to welcome their new rector, Rev. George Davidson, his mother, Mrs. Mary Frances Davidson, and sister, Miss Davidson. Members of the vestry and several societies of the parish received, including Bishop and Mrs. Joseph H. Johnson, Rev. A. C. Shuler, and Mrs. Josiah Crutcher, Cowlie, Mr. and Mrs. H. L. Miller, Dr. and Mrs. A. L. Macleish, Mr. and Mrs. R. B. Kirkhoff, Mr. and Mrs. George Herbert Wigmore, Mr. and Mrs. Curtie Williams, Mr. and Mrs. Edward Johnston, Mr. and Mrs. Daniel Clark, Mr. and Mrs. Thomas R. Lee, Mr. and Mrs. Albert Crutcher, Mrs. Leonard, Mrs. L. B. Graham, Sayre Macnell and James Page.

Good Shepherd Party.
Members of the Good Shepherd Auxiliary gave a pleasant card party yesterday afternoon at the Navarro Apartments. The guests were received by the president, Mrs. Mary J. Schellert-Burkman, who was assisted by Miss Marie Mullen, Mrs. Boylsen, Mrs. L. N. Brunwig, Mrs. Michael J. Connel, Mrs. G. Alexander Bobrick, Santa Ana.

GETTING IN BAD.

It is perfectly fair to contend for the rights of the State; but the right to wrong a State is something most of us decline to fight for.

INDISCREET.

John R. Mott, the great Y.M.C.A. foreign secretary, advises granting American citizenship to the Japanese. For a man who may want to accept the Ambassadorship to China this is not a diplomatic speech.

A GOOD EXAMPLE.

Stewart Edward White is going to Africa on a long expedition. Would that all authors might go to South Africa or points of similar distance from the centers of civilization. Then might we have a brighter and a better world.

MERELY FRANK.

The Democrats who met in Los Angeles to discuss the tariff bill wound up by quarreling bitterly over the Federal patronage. Since this is where their interest really lies, it seems well enough to have them admit it.

PERMANENT.

Another rebellion in Mexico has elected Gen. Carranza as provisional President to occupy the office until Mexico City is captured and regular elections are held. Mexico City might save itself trouble by formally declaring itself in a permanent state of capitulation and captivity.

UNFORTUNATE.

If the present treaties interfere with anything America wants to do, the policy of the Democrats is to abrogate the treaties. That could be a good policy in itself, but it is bad policy to make much noise about it at this time. It is all right to walk over anybody who is in one's way, but it is a great mistake to let them know about it.

MAZED.

Gov. Johnson pretends to be amazed at the attitude of the United States in desiring that California should refrain from plunging the whole nation into an unsought and undesired war. He is surprised that anyone should question his divine right as a king to rule America along with his own State. He wishes Mr. Bryan and Mr. Wilson to attend to their own business and wants no more advice from them. It is too bad for California that its Governor does not live in Mexico. Indeed it is a misfortune for this State that Johnson and the members of his precious Legislature ever disavowed him. They would all make admirable Mexicans under arrest while trying to escape from their guards. An Irishman said that it was a good thing for his wife that he wasn't married.

SCOTTISH CHIEF.

The Laird of Lochbule has come to America with the right ideas under his bonnet and the right kind of heart under his waistcoat. Fortune-hunting foreigners, snoring around to trade off a useless corner for the good property of an American heiress are an undesirable class of aliens, more undesirable in reality than the humble Jap-Chinese laborer.

But this bonnie Highland chieftain has come to our shores, filled with two laudable ambitions: to become a useful worker and to marry, for her own sake, a true-blue American girl. We wish the Laird success in both his enterprises. (If he can pull off such a happy combination he will come as near attaining perfect happiness as is possible in this imperfect world.)

We wonder whether anyone has properly described to him yet the glories of Los Angeles, where enterprise is better rewarded than in any locality this side of heaven; where there are to be found the sweetest, prettiest and wittiest girls, unexcelled even in regions beyond the stars.

"Go West, young man; go West," was the counsel of wise old Horace Greeley; and you can't go farther West than the blue shores of the Pacific. The Laird will be minding it if he stays anywhere short of that goal.

ONLY A HOAX.

Vice-President Marshall has gone rapidly on record as a man badly misunderstood. He declares his remarks favoring the confiscation of large fortunes by the State, on the demise of the original owner, was simply a piece of pleasantry. The kernel of his speech, he says, was an exposition of his Jeffersonian Democracy and his pride in his American ancestry. But the shell was too thick to be penetrated without the use of an X-ray. When speakers say one thing, while meaning the exact opposite, they ought at least to give some hint of their intentions. We know there is a true word said in jest, but we are not looking for crude jests said in earnest.

However, for the Vice-President's reputation, we are glad to know that his startling "will speech" was only clumsy joking. The public took Mark Twain's famous petrified man article in sober verity, though the satire was quite evident, which made the hoax all the more laughable. Edgar Allan Poe's imaginary story of a balloon trip across the Atlantic was treated as an actual happening by some clumsy critics. But our new Vice-President has not the ability to follow in the footsteps of Poe or Twain, nor does his office call for such efforts on his part. The public doesn't mind being hoaxed by a prince of jesters or a king of romance—it will laugh heartily at the success of the trick. But the public isn't looking for tricks or solemn pleasantry in important political utterances from responsible statesmen.

THE ISSUE IN 1914.

From the reception accorded the Underwood bill in the House of Representatives it is clear that the campaign of 1914 will be made upon the tariff and upon no other issue. By that time the workings of a Democratic tariff will have made manifest to the voters its advantages and its disadvantages. If it appear that the Republican protective policy was better for the country than Democratic free trade, the voters will so decide and the Democratic party will return to the obscurity from which the treachery of Col. Roosevelt gave it an opportunity to emerge last November.

The tariff was not practically an issue, or at least was not a vital issue last fall. In so far as the people passed upon the question of a protective tariff or a tariff for revenue only, they decided in favor of protection, for both the Republican and the Progressive platforms were antagonistic to the Democratic tariff-for-revenue-only doctrine, and Wilson and the Democratic Congress were elected by a minority vote.

In the canvass little was said about the tariff. The unpopularity of the Taft administration, the spectacular canvass of Roosevelt, the restless desire for a change, the high cost of living, all were factors, and the tariff was scarcely considered.

It is up to the Democratic majority in Congress to decide on several important questions of foreign and domestic policy. The currency question, the question of retaining the Philippines, the question of free trade for American ships passing through the Panama Canal, the question of immense appropriations for impounding the floodwaters and deepening the channels of western rivers, with many minor questions, will be before Congress. But the main question on which party lines will be drawn will be the tariff question.

Grant said in 1880, "The Democratic party will break its back across the Alleghenies on the tariff question." He proved a true prophet. The history of 1880 is likely to repeat itself in 1914.

THE POPE'S RECOVERY.

The wonderful recuperative powers of Pope Plus X have carried him safely through a severe spell of sickness that very few men of his age could have successfully combated. All good people will pray that no set-back may undo the work of convalescence; the world can ill afford to lose any of its leaders.

"Man does not yield himself to the angels, nor unto death utterly, save only through the weakness of his feeble will." In the light of actual experience this saying of Joseph Glanville requires some modification. Yet it contains a vital truth. The case of Pope Plus exemplifies it clearly. The restless desire for work, the active determination to fill a little more time on earth with good deeds—a temperament the doctors feared would be fatal to their illustrious patient—was the agent that enabled him to ward off the hand of death.

Will power, though it cannot conquer the inevitable hour, has often been able to postpone it. As soon as a patient gives up, as the saying is, the doctors generally begin to give up too. An object in life is the finest elixir of youth; an earnest purpose is the best medicine in sickness. The aged Pope possessed both these powerful antidotes to decay. An earnest life of hard work had given him the will power not "to yield himself to the angels, nor to death utterly," as long as the world is still in need of his services.

Of course the time will come for everyone when others must carry on the work, however well done, still inevitably unfinished. For work is as eternal as the soul of man; a life work may be well ended with a life, but work is immortal. When the summons comes, Pope Plus will have done his share, and more than that no man can expect.

ADVANCE, LOS ANGELES!

Now go ahead with your prophecies! Forecast that by the opening of the Panama Canal the population of Los Angeles will have reached the million mark and we will praise your moderation. Why, man alive, Los Angeles in her rapid growth has even fooled our real estate boosters—the population has grown so rapidly that it has dragged the price of real estate behind it like a wagon hitched to a star! This old globe as a whole may be described as the home of the quick and the dead, but Los Angeles as a unit is the happy hunting ground of the quick and the live. A city must be up bright and early to keep ahead of its real estate.

Watch us grow, then, all of you, and step lively to keep pace with us! From 320,000 to 500,000 since the census of 1910! Note the percentage and remember our rate accelerates as the cube of the distance in years. Try to reckon on this basis what our population will be ten years hence. And then you will fall as far short of the mark as our present prophets have done.

A Socialist regime—luckily at present an impossibility—might hold us back for a time, but nothing else on earth can prevent our onward triumphant progress. On Los Angeles, on, to the million population mark! On to your certain future as the mistress of the Pacific; on to your higher goal as the grandest metropolis in all America. On to your destiny as the capital city of the whole civilized world!

FARMERS' CO-OPERATION.

The farmers—East, West and South—are protesting against the large profits taken by the middlemen, and are offering resistance to a continuance of their exactions through an organization recently formed called "the National Conference Market" and Farm Credits." It came into being because heads of farm granges, farm experts and growers who had invested in lands alleged that their products were going to waste, while the cost of living went up.

The member of the Massachusetts Homestead Commission said: "Potatoes we raise on truck farms in Cumington, Mass. were left to spoil in the fields. In Worthington, a town near Cumington, they sell for \$1.50 a bushel. There seems to be need for co-operation between East and West."

Between "spoiling in the fields" and \$1.50 a bushel there would seem to be a gap that in some way ought to be filled. Reference was made by the Illinois delegate to the fact that Chicago housekeepers paid 12 cents a head for cabbages for which the commission merchants paid only \$1.50 to \$2 a crate. The farmers left their cabbage crops in the field as not worth har-

Back Up!

UNCLE WALT.

The Post Philosopher.

I do not wish to go and fish, as other lads are going; I'd rather take the spade and rake, or spend the long day hoeing. I'll plant the seeds and pull the weeds where grow the beet and radish, nor yearn at all to play baseball or other pastimes faddish. When I am done, at set of sun, with cabbage, bean and onion, I won't forsooth, read tale of sleuth—I'll read the works of Bunyan. I do not care to see the bear or elephant performing, or watch the clown come tumbling down when up a pole he's swarming. To do my task is all I ask, all day, till light is dwindling, to saw the wood, as children should, and split the morning kindling. Let other lads distress their dads and in the brook go swimming, with knife on edge I'll prune the hedge and give the trees a trimming. I'll clean the yard which now looks hard, and paint the shed and stable, and fix the fence with real intensity, and till while I am able. I do not see how there can be a lot in foolish pleasure; the one best bet is honest sweat, and toil's our greatest treasure.

WALT MASON.

(Copyright, 1912, by George Matthews Adams.)

A TABLE OF DOMESTIC WOE.

(Chicago special to New York Times.) Judge William N. Gemmill, who has been sitting in the Domestic Relations Court for several weeks, today told of the things which, in his belief, cause domestic woe and separation of the middle class under the leadership of Benito Juarez, who was styled "the civil founder of Mexico." He was the teacher of Porfirio Diaz, who for many years ruled Mexico. He, Diaz, brought order out of chaos, a reign of law out of barbarism, and peace and prosperity out of brigandage. His methods were severe, but they were effective, and it was an evil day for Mexico when he was compelled to resign the Presidency.

Madero promised too much. The ignorant and turbulent classes, the bandits and the adventurers, expected to have immunity, if not license, under his rule, and they were disappointed. The peons looked for "forty acres and a mule," with big wages and little work, and they also were disappointed. The middle classes failed to receive the protection and prosperity they coveted, and they gave Madero but cold and unfriendly support.

The coalition between Felix Diaz and Gen. Huerta at first promised much. Its success was marred abroad and perhaps at home by the killing of the Maderos and the Vice-President. But the fact is that the brief and interrupted rule of the Maderos is over beyond the hope of recall. If at the election, which will soon be provided for, Felix Diaz can obtain the support for the Presidency of the middle class, many of whom will be drawn by his name, we may again look for a rule of law and the industrial recovery of our sister republic.

ASSESSABLE AND NON-ASSESSABLE.

[Judge:] The tax assessor of a county in Northern Arkansas called at the domicile of a back-country resident and the following conversation took place:

Assessor: Amount of stock? Critters, yuh know.

Resident: Onery passel. Two hosses, one coow and five head o' haws.

A: Value?

R: Oh, 'bout a hundred dollars, I kalkerlate.

A: One hundred? O. K. By the way, them's oncomin fine purp' yuh got there.

R: Yep. Ding-whislers! Fox houn's them be.

A: What'll yuh take fer one?

R: Hundred dollars. They're woth two.

Basque's Hardest Language.

[Harper's Weekly:] It is said that though the Basque language, which is spoken in the Pyrenees, is one of the most difficult of all languages to acquire, the youngest child, conscious of his own thought, can express himself perfectly in it. It is revered, in vigor and word painting, this is the richest of all languages. This may be partly due to the fact that nouns, pronouns and adjectives change into verbs at will and verbs may be transformed into nouns and adjectives. Every part of speech, and even the letters of the alphabet, can be declined like nouns, and adjectives are conjugated like verbs.

MR. BURBANK HAS A NEW JOB.

[Popular Magazine:] Physically speaking, Ollie James, the new Senator from Kentucky, weighs close to 300 pounds, and his last achievement was to give Luther Burbank, the plant wizard, a new and difficult job. Last summer James toured California, and one day he lunched with Burbank, who seemed intensely interested in the vast amount of food the big Kentuckian stowed away and his manner of doing the stowing. Immediately after the lunch the scientist made a quick dash back to his experimental station.

"Why are you in such a hurry, Luther?" asked one of the party. He responded seriously, "and see if I can't propagate a square-shaped pea that won't roll off of Ollie's knits."

IS ENGLAND DYING?

BY HARRY BOWLING.

Death results from three causes, accident, sickness or extreme old age. There are theorists, indeed, who maintain that, barring accident or disease, old age itself never kills. Historians have allotted to nations the same succession of birth, growth and decay as mark the progress of the human individual. If the life of nations parallels that of man, then death comes only through accident or disease; the lapse of time does not affect the result.

China, the oldest nation in years, is still a baby just emerging from swaddling clothes; Japan, antedating Persia or Babylon, is an adolescent with all the cool assurance of the incipient mustache period. America, whose years are fewer than China's centuries, is already a mature man, strong and vigorous, but, in view of some academic theorists, showing some sign of a too premature development. These same alarmists, after detecting the little rift in the Yankee lute, have discovered a hopeless crack in the British drumhead. They say if Uncle Sam is developing hypochondria, John Bull is mortally stricken.

As far as America is concerned, it seems to me that the republic is more afflicted with doctors than with diseases—we are being a little overdoctored. The question "Is England Dying?" deserves closer examination. For it will be a sad day for the white civilization of the world should the mother country go down, as have Persia and Greece and Rome. Since the fall of the Roman Empire no nation except the Teutons and the Austrians have perished entirely from the earth. Is the name of Great Britain to be the next on the list? Which way are the prophetic stars blowing?

There was no English nation before the year 1066, so that England is comparatively young, having just celebrated her 847th birthday. Even lasted for 4400 years. The period of Britain's greatest vigor dated in the latter half of the sixteenth century, when her intellectual, her patriotic and her pioneering energy reached their zenith. Since then her fortunes have fluctuated, though her empire has continually grown wealthier and more populous, notwithstanding the loss of the American colonies. Perhaps she would be better off today if she had not been so expansive as to tremendous a cost.

Political economists have proven that the empire has grown at the expense of the mother country. Her best sons have gone away to colonize her far-off possessions, never to return. Soldiers go forth to fight, and many of them become, after the war is over, sources of added strength to the home country. Her best sons have gone away to colonize her far-off possessions, never to return. Soldiers go forth to fight, and many of them become, after the war is over, sources of added strength to the home country. Her best sons have gone away to colonize her far-off possessions, never to return. Soldiers go forth to fight, and many of them become, after the war is over, sources of added strength to the home country.

Today England is not only producing no leaders fit to lead, but the rank and file of the home people are deteriorating. Thus the country becomes an easy prey to Socialist and syndicalist agitators, while the authorities are no longer capable of dealing with the anarchy of their unruly women. The desperate attempts of the British feminists to deal with the situation by means of state marriages—a system that brought about the downfall of Sparta—proves to what a serious pass British society has been brought. Britain has built up an empire, but that empire cannot rebuild Great Britain.

Canada is not overenthusiastic about buying ships for the Imperial navy; Canada knows she is strong enough to stand alone. Australia is indifferent to the European situation; she is really, you know, so far away from the mix-up. South Africa is more Dutch than British. Great Britain has drained her life blood to feed an unwieldy empire. Let the British arms receive one serious reverse—let her lose her mastery of the sea—and that empire splits up into a series of independent, self-supporting nations. She has crushed herself with debt, expropriated her best sons, left her home people to the mercy of demagogues. In her pride she smugly and her boast of a far-flung dominion. But the parts have become greater at the expense of the whole.

"The hedge sparrow fed the cuckoo so long that it had its head bit off by its young." The next few years may throw a startling light on the national health of Great Britain; an accident may cut her short, as the sword of Cambray cut short the four thousand-year dominion of Egypt. John Bull has, like King Lear, given away his kingdom to his grown-up children, and those children are already growing little empires with the old king. The cry that England is dying may be exaggerated, the fact that she is suffering is alas! too patent to her enemies. For the first time in her history she is afraid; afraid of Germany, afraid for her sea supremacy, afraid of her own women, afraid of her radical leaders, afraid of dreams and fancies. And this is a bad sign in a naturally brave nation. Surely immigration strengthens as emigration weakens.

QUAKER MEDITATIONS. [Philadelpia Record:] The men who don't go to jail are either too good or too rich. It sometimes takes a mighty sharp tongue to get in a word edgewise. The man who thinks twice before he speaks is generally the man of few words. It's all right to take time by the forelock, but don't try to snatch him bald-headed.

"Love knows no law," quoted the Wise Guy. "How about the mother-in-law?" demanded the Simple Mug. The Cynical Bachelor rises to remark that Lot's wife wasn't the only woman who wasn't worth her salt.

The people who are always finding fault might better occupy their time in looking for a needle in a hay stack. Laugh and the world laughs with you, but the fool never knows whether the world is laughing with him or at him.

Mrs. Gnags: Before we were married you used to swear you would love me always. Mr. Gnags: And now I am always swearing because I did.

MR. BURBANK HAS A NEW JOB. [Popular Magazine:] Physically speaking, Ollie James, the new Senator from Kentucky, weighs close to 300 pounds, and his last achievement was to give Luther Burbank, the plant wizard, a new and difficult job. Last summer James toured California, and one day he lunched with Burbank, who seemed intensely interested in the vast amount of food the big Kentuckian stowed away and his manner of doing the stowing. Immediately after the lunch the scientist made a quick dash back to his experimental station.

"Why are you in such a hurry, Luther?" asked one of the party. He responded seriously, "and see if I can't propagate a square-shaped pea that won't roll off of Ollie's knits."

Much of the Earth Unexplored. [The Argonaut:] Despite the discovery of both poles, a large portion of the earth still remains unexplored. Roughly, it is estimated that about 7,000,000 square miles, or approximately one-eighth of the total land surface of the world, is still a mystery to civilization. Included in this area are vast tracts of polar region, portions of Arabia, jungle and mountain in South America, spreading wastes in Australia, regions in the Himalayas, dark haunts in Borneo, and the Congo basin, and stretches of the Sahara.

[Judge:] The cause of failure with most men is dreaming what they might have been.

Pen Points: By the Sky

Everything quiet in Tokio.

Some class to Southern California, one full-fledged baseball league in the air. In the tariff game the spit ball of the dent Wilson does not seem to break over the plate.

We know of a girl who knacks on when she wants anything. Her old man used to pray for it.

Col. Adolph Woigast is out of the line, but we don't hear of any other offering him a professorship.

When Los Angeles gets a new grand change we suggest as the local author, Thru West By-and-by.

"Kahanamoku May Swim Here in Hawaii that will be quite a swim."

Dr. Mary Walker is a candidate for the mission of Pensions; in fact, it is said that she fairly pants for the job.

Angelenos can now go round the world in thirty-six days. What has become of Phineas Fogg, who thought he was making a record in eighty?

Japan wants to borrow the more than \$25,000,000. Here is an opportunity for some Los Angeles caterers to invest his surplus cash.

The government has issued a bulletin how to cook mutton. Probably the only Congress for free wool. Such action means the death of the mutton.

The advocates of a larger standing are getting a lot of food for argument. The current meeting of the National Congress of the American Revolution in Washington.

Mrs. Carrie Chapman Catt declares woman suffrage will sweep the country. What brand of bioculture is using, Mrs. Catt? You can certainly come.

The wealth of the late J. Pierpont Morgan is variously estimated at from \$100,000,000 to \$1,000,000,000, but many a man know of would be willing to let the difference.

The aria "Beloved, Awake, To Me" was sung at a wedding on Mount St. Helens. But instead of thirty and groom will be compelled to travel in alarm clock.

A strike of school children is reported in the East, but whether it is against the curriculum of study or the rule against the kid dolling up like their elders is a graph does not say.

Candidate Croyer ought to have been to the ground instead of the telephone. He really wants to know what is coming of old dog Tray was also found in his pany and suffered for it.

The aqueduct industrial parade for June 18 will be the biggest thing seen in Los Angeles and the world's calloppe in line to bring up the rear, scare the automobiles, either.

The Legislature has passed a bill that is a misdemeanor for anyone except the parents of a boy under 21 years old to sell him tobacco. This will make a sary for father to carry two kinds of weed.

Ambassador Page is to be commended for his life. He has been a journeyman to telling many things that he knows. At the court of St. James he was allowed to tell nothing. How is he suffer?

An indication of the nerve of Madero in holding out against the power of the statement that he is a man of more than Connecticut and, basing the nation of Los Angeles at \$60,000,000, our size.

But whatever anti-alien legislation enacted by California, the rapid of the States Supreme Court have yet to be. But what is the Constitution as a political dispensation.

Chairman Underwood says we are from foreign countries against the trade tariff bill have been filed in the Department. Surely not; but is it wood making a tariff law for the world or Europe? Why should Europe kick?

"Gold Discovery Day," January 24, celebrated in California by the discovery of a bill just passed by the Legislature. The citrus fruit industry of California has announced its intention than taken out of the ground by Marshall discovery at Sutter's Fort.

Philosophy and Poetry. Grim as the desert's welcome story, Gray as the faded monoliths of the past, it stands upon life's clamorous sea. Its marble columns thick with mould. No tears or laughter mark its visage. No garden buds within its vision.

Within its halls is sifted bread of life (The treasured wisdom of the schools). And here are spun dream fancies. The simple faith of wiles new houses. And day and night its breathing read. The stones worn smooth by the passing years.

And past its portals rolls the billow of the sea. To where the sound of voices goes. Where brightly burns the hearth. Where soon will blow the wind of the rose. Where joy and sorrow, and the wait.

The homiest stranger selected for the hearth. (Walter Loe, Jr.)

OAKLAND

The Boxer.
ALL WANT THE
JULY 4 DATE.Dundee Would Take Chance
at Three Titles.Johnny May Come Here to
Sell Fish.Bud Anderson Makes Speech
in Oregon.Uncle T. McCarty gnaws his mou-
stache with frenetic anxiety; there
are many things upon his mind. Where-
fore we will interview him for a
while.The greatest day of the sport year
is still a recent date on his calendar.
He is undecided what to put on for
July 4.Luther McCarty wants to fight
somebody here for the heavyweight
championship of the world on that
date. Practically every lightweight in
the world would like to get a chance
at Willie Ritchie's title on that date in
the Vernon arena.Both Johnny Dundee and Johnny
Kilbane want to turn lightweight and
go after the championship on July 4.
Nothing could exceed the liberality of
Dundee's offer; he is willing to fight
July 4 for either the bantamweight,
featherweight or lightweight title.
He apparently regards the coming
fight with Kilbane as a mere formality
between himself and a fight for the
light title.River and Bud.
As to the first proposition, McCarty
will have none of the heavyweights,
so there will be nothing doing for the
heavyweight title match.July 4 date will go to some pair of
lightweights, but Uncle Tom is not at
all sure that one of them will be
Willie Ritchie. He believes that
Ritchie will be sure to pick up the offer
of Tommy Murphy and McCarty.
He can't see anything in a match between
Ritchie and Murphy. Too soft!If Bud Anderson wins his coming
fight with Joe Mandor, it is probable
that he will be selected as an op-
ponent for Joe Rivers.Although some of the fight experts
smile at the lightweight aspirations of
Dundee and Kilbane—not so Uncle
Tom.Uncle Tom expressed this opinion at
Dundee's camp the other day.
I believe that Dundee would be a
sure winner over either Tommy Mur-
phy or Ad Wolgast or any fighter of
that type. I doubt if he could win
from Willie Ritchie. On the other
hand, Kilbane would be pretty sure
to beat Ritchie, but would have a
hard time with either Wolgast or
Murphy. There is just that much dif-
ference in the styles of the two boys."Dundee for Fish.
Johnny Dundee has joined the
choir of well-known boxers who
have declared their intention of com-
ing to Los Angeles to live.I have been saving my money ever
since I began to fight and I have quite
a hunk now in the bank," said
Johnny. "Up to this time I have
been satisfied to get a per cent. in-
terest on it; but after this fight I am
going to start a fish market or
something of the sort."Johnny considered the matter for a
minute and then said: "I am
going to start a fish market or
something of the sort."My father is in the fish business
in New York and I have been driving
a fish wagon ever since I was big
enough to sit on the seat and hold the
lines. I understand all about the
business and I would naturally be in-
clined toward it. Scotty Montie
thinks we ought to put up an apart-
ment-house."Dundee Rests.
Dundee gave his training partners
one farwell beating yesterday and
knocked off work. He will do no
training today. His manager says he
is about down to weight and, after one
day's rest, will go back to the grind.The joy in Doyle's camp on account
of the day of leisure will be a beauti-
ful thing to see. Dundee is the hard-
est trainer who has been around here
for a long time and the sparring part-
ners are sore to their bones.Johnny Shiff, who went out to the
camp on condition that he be given
consideration as a contender for the
featherweight title if Dundee won it,
has withdrawn both from the train-
ing camp and the title contention.
Shiff doesn't want any title now. All
he wants is peace in some place where
there isn't so much horse power be-
hind the boxing gloves.

These little fighters are attaining

HITT GATHERED

Public Service: City Hall, Courts

SUMMARY OF THE DAY.

The Council yesterday postponed action on the proposed Arroyo Seco Parkway for thirty days. Councilman Betkouski attacked the project, declaring that unless paid for by the entire city the assessments would mean the confiscation of homes. He urged that the problem be left to the new Council.

Garrett L. Hogan was granted a permit yesterday for a fish cannery at Wilmington wharf. He is to pay the city \$1200 yearly for the privilege, and will invest \$20,000 in the plant.

The Council yesterday gave its approval to the assessment districts for the proposed First-street and Second-street tunnels, and the City Engineer was instructed to present the ordinances of intention.

Provision was made yesterday for loaning \$40,000 from the city's reserve fund to the water revenue fund, to meet obligations on the Franklin Canyon work.

More than \$1,000,000 is bequeathed to the widow and relatives of the late Joseph H. Spire. The Superior Court granted Mrs. Spire a monthly allowance yesterday of \$1000.

At the City Hall.

SAYS DISTRICT HAS OVERBURDEN.

BETKOUSKI ATTACKS ARROYO PARKWAY PROJECT.

Says Unless It's Paid for by Entire City, Homes Will Be Confiscated Through Assessment, and That Park Clamor Comes from Those Who Don't Have to Pay.

Arroyo Seco Parkway is still an intangible thing, so far as definition of the City Council is concerned. The Councilmen voted yesterday to postpone action for thirty days. This was at the suggestion of Councilman Langdon, supported by Councilman McKenna, with the understanding that the proponents of this project get into the field, and present as large a petition as possible by that time for the proposed improvement. It has been estimated, may run into a cost of \$2,000,000.

Councilman Betkouski proposed this postponement for thirty days. He declared that as a new administration is imminent, this subject should be left to it to deal with as it sees fit, and cited the fact that the present administration was embarrassed by a "hang-over" in the Exposition Park assessment, which had raised a storm of protest, while it was but insignificant compared to the assessment that is proposed for the Arroyo Seco Parkway.

Betskouski declared that certain districts of the city are being assessed to death, and that the only just way to carry out the proposed enterprise would be a tax upon the entire city. He stated that the lands proposed to be included in the parkway assessment district are already overburdened with assessments and that he personally knew of instances where further assessments will mean the actual confiscation of homes.

"These are the things that call down the wrath of the people upon this Council," declared Betkouski. "The park department is the most flagrant violator of the rules of economy, which should govern this city in its present condition. This assessment system is breeding disaster for you Councilmen. The pernicious placing of assessments is one of the strong factors that has brought about the situation whereby we are faced with the coming primaries."

"The great clamor for the Arroyo Seco Parkway comes from people who will not have to pay the coin and from women's clubs that have an appreciation for the beautiful but that do not have to bear the burdens that this project will entail."

INCOME FROM WHARF.

FISH CANNERY PERMIT.

The city is to receive its first income from the old municipal wharf at Wilmington. Built three or more years ago, this wharf has stood unused and deteriorating, now it will bring in a revenue of \$1200 a year. The City Council yesterday sold to Garrett L. Hogan a permit for a fish cannery at this location. The cannery will represent an investment of about \$20,000. It will be built back of the wharf, and will use only a comparatively small portion of the water frontage, which will also be accessible to the public. The bid was for \$1200, payable in advance, yearly, and a check for \$500 was deposited as an evidence of good faith. The bid was accepted and the City Attorney was instructed to prepare the necessary ordinance awarding the franchise.

INCOME FROM RIVER.

SAND AND GRAVEL SALES.

An ordinance will become effective on May 19 that provides for the charge of 10 cents per load for sand or gravel removed from the bed of the Los Angeles River between the Buena Vista-street bridge and Sixth street.

Inspector of Public Works Hansen yesterday submitted to the Board of Public Works his plans for handling this new departure in the city's business, and these received the approval of the board. Hansen will require for this purpose the use of six laborers at \$2.50 per day, as collectors. Gates will be constructed at the entrances to the river bed at Avenue Nineteen, Macy street, Seventh street and Ninth street, and all other entrances to the river bed will be closed. These gates will be kept open from 5 a. m. to 6 p. m., and collections will be made at the gates as the loads are taken out. Hansen estimated that an appropriation of \$550 will be required for this department for the balance of the fiscal year. He estimates that the expense of collections will amount to \$15 per day, while the net proceeds will be about \$60 per day.

Election Is Called.

Formal action was taken by the City Council yesterday in providing for the municipal primary election for Tuesday, May 4. The ordinance was adopted making this date and providing for the polling places and election boards. The Mayor signed the ordinance yesterday so that its publication may be started at once.

Tunnels Assessment District.

The Special Committee on Tunnels, composed of Councilmen McKenna, Whiffen, Topham, Langdon and Andrews, reported to the City Council yesterday in favor of the proposed assessment districts for the First and Second-street tunnels. The territory covered is the same for each of these projects. The Council adopted this

report and instructed the City Engineer to present the ordinance of intention for this work. It is estimated that the First-street tunnel will cost \$400,000 and the Second-street tunnel \$225,000. Plans for the extension of the Hill-street tunnel will be ready for presentation to the Council next Tuesday.

Candidates' Expenses.

Councilman Reed yesterday introduced a resolution in the Council instructing the City Attorney to prepare an ordinance requiring all persons spending more than \$50 in the interests of any person or group of persons in any campaign to make a detailed statement of such expenses and the source of the money so used, such statement to be made under oath. The subject was referred to the Public Welfare Committee.

Negotiating Committee.

The City Council's committee composed of Councilmen Williams, Whiffen and Betkouski, appointed for the purpose of conferring with the power companies, several months ago, regarding a city taking over portions of their distributing systems as could be used to advantage in distributing electric power, will hold further meetings with the hope of working out a solution of the problems of power distribution. The N. E. C. Commercial and Improvement Association's resolutions regarding the use of existing lines were referred to this committee yesterday by the Council.

City Makes a Loan.

From the reserve fund the sum of \$40,000 is to be taken by the City Council and loaned to the water revenue fund until July 1. So the Council voted yesterday. This money is to be used to meet outstanding obligations for work on the Franklin Canyon dam and other work on that project, and was asked for by the Aqueduct Advisory Board.

Exempt From License.

An amendment to the license ordinance was accepted by the City Council yesterday, pending for the promotion of the municipal curfew markets that are to be opened at three different locations on May 3. This amendment provides for exemption of producers from license fees when selling their produce in the city. It says:

"Nothing in this ordinance contained shall apply to or require the producer of any food product to obtain a license to sell, offer for sale, or peddle any such food product in the event such producer sells, offers for sale, or peddles such product in person or by some other person under his action or control."

City Hall Briefs.

Property owners in the vicinity of Twelfth and Georgia streets, where it is proposed to open one of the municipal curfew markets, have filed a protest against this, and the Council yesterday referred this protest to the Public Welfare Committee.

The City Engineer was instructed by the City Council yesterday to present the necessary ordinance for the opening of Broadway from Tenth to Pico streets.

Bids were opened by the Council yesterday for the erection of the clubroom at the Violet-street playground ground. These bids ranged from \$100 to \$4447.

Fargo-street's neighborhood quarrel over steps maintained by a property owner so that a portion of them in the street had another hearing before the Council yesterday, and resulted in the protest being denied. The steps will remain.

The Municipal Railroad Committee of the Council is to make a report as to the advisability of directing Engineer Howarth to finish certain lines of work now uncompleted before May 27, so that his services for the city may be dispensed with after that date. Councilman Reed wants the city to continue to employ Howell until he completes the entire plans for the proposed municipal railroad and terminates his but, councilman Reed leads the opposition to this and declares that the payment of \$500 a month to Howell should be cut off as soon as possible.

The Council referred to the Board of Public Utilities yesterday the demand of Charles E. Warner that an investigation be made as to whether money used by power companies in the recent campaign against the municipal power bonds is charged against the amount that is being considered in fixing rates for service. Warner also protests against the rates as set by the Utilities Board for the next fiscal year, but this protest will be heard by the Council on May 13.

At the Courthouse.

TO LOVED ONES

GOES MILLION.

ANGELENO'S WILL PROVIDES FOR HIS FAMILY.

Allowance of Thousands Dollars Monthly Granted Widow—Occidental College, Y.M.C.A. and Barlow Sanatorium Receive Substantial Bequests.

Mrs. Mary Harrison Spire, widow of the late Joseph H. Spire, a real estate operator who died January 3 last, leaving an estate appraised at \$1,141,228.11, was granted a family allowance of \$1000 a month by Judge Rivers in the Probate department of the Superior Court yesterday. The petition was presented by Attorney John D. Pope for the executor, Ralph E. Matteson, and the Securities Trust and Savings Bank.

Spire owned real estate in Los Angeles county worth \$900,000; stock in the Los Angeles Pressed Brick Company, \$14,550; notes secured by mortgages on Los Angeles county property, \$12,000; stock of the Western Fuel and Gas Company, \$100,000; an interest in a syndicate, Rancho Sausal Redondo, \$50,000; real estate in Nevada and mining claims in Mexico.

Mrs. Spire is the child beneficiary under the will, which provides that three years after her husband's death, \$15,000 be paid to his niece, Marie Grace Stewart. Five thousand is placed in trust for his brother, Stephen Spire. A nephew, Glenn Spire, will receive \$200; \$10,000 in trust is left for Belle Stewart; \$10,000 for Joseph and Glenn Stewart, and \$12,500 each for George and John E. Spire, brothers.

Occidental College and the Los Angeles Y.M.C.A. are bequeathed \$10,000 each and Barlow Sanatorium, \$25,000.

COURTS CROWDED.

INTERESTING SUIT CONTINUED.

The suit of Philip L. Wilson, pres-

ident of the Trader's Bank, against the Belasco-Blackwood Company for rental value of the property occupied by the old Belasco Theater, was continued yesterday until May 12 because there was no court in which the case could be tried.

The opposing counsel in this interesting suit are Thomas O. Toland for Wilson, and Scarborough & Bowen for the company. The lease provides that a flat rate shall be paid for a given time. After that period the rent is to be fixed on the value of the property. The appraisers were to have been selected by the parties to the lease and these appraisers were named a third. The third arbitrator could not be agreed on, it seems, and the matter was brought in court for determination.

ON OLD COMPLAINT.

LITIGANT IS INSANE.

A picturesque character was removed from the corridors of the Courthouse yesterday when Gus Swanson was arrested on insanity complaint. It is said Swanson invested his savings in property, only to discover that instead of owning it, he held but a slight interest in it. He endeavored to collect the rents, but the real owners protesting, he was finally arrested and later placed on the role. Deputy Sheriff Woods and Cole picked him up in Department Three.

Swanson's grief over the loss of his money in the old transaction is said to be responsible for his hallucinations. He invaded the court almost continually with suits he desired to bring, involving title to valuable property.

ENOUGH FOR BOTH?

THE ETERNAL QUESTION.

The long and short of it is, Barnes, aged 76, who has an honorable record as a soldier in the Civil War, was saddened by a matrimonial experience. He was taken to court yesterday on a charge of failure to provide for his wife.

He had married Mrs. Barnes. He had married her for his money. Barnes told the court his wife knew why he married her. He had enough money for both. "I will dismiss the case," Judge Monroe said. "You don't come here for a divorce." Barnes agreed.

MINOR DISCARD.

BALM FOR HURT EARS.

Two school children, represented by their guardians, were parties to a \$20,000 damage suit in Judge Wellborn's court yesterday. The little tragedy, which resulted in Doris H. Eccleston, aged 9, suing Stella Rose, her 14-year-old sister, was enacted in the yard of the grammar school at Avenue Sixty-two, June 9, 1911.

Doris was swinging around the Maypole when, she testified, Stella interfered. Apparently Stella used too much force when she intended, for the alleged result of pulling Doris's ears was inflammation of the organs and impaired hearing.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

ALIENATION CHARGED. David Levy asks \$10,000 from Mr. and Mrs. A. C. Winters, his brother-in-law and sister-in-law, for alleged alienation of the property of his sister, Lillian. The complaint, filed yesterday, asserts Levy was married November 29, 1911, and lived contentedly with his wife until the defendants began to acquire an influence over her. He charges she was induced to leave him on the 15th inst.

CHARGED WITH MURDER.

Mexican on Trial for Slaying Conjurman in Quarrel Over Favors of a Pretty Senorita.

The murder trial of Blas Munro of Montebello, began yesterday in Judge McCormick's court. A large number of witnesses are subpoenaed and Deputy District Attorney Doran, who is prosecuting the case, stated that the end will not be reached before the last of the week.

According to the evidence in the hands of the State, Munro shot and killed Juan Robles outside a dance hall at Montebello last September. It is also alleged that the defendant wounded Narciso Robles in the melee. Munro alleges self-defense.

According to the testimony adduced yesterday, Munro and Robles quarreled over the attentions of the

Grandma Talks About Babies

Has a Large Circle of Listeners Who Profit by Her Wisdom and Experience.

In almost any settled community there's a grandma who knows Mother's Friend. Not only is she reminiscent of her own experience, but it was through her recommendation that so many young, expectant mothers derived the comfort and blessing of this famous remedy.

Mother's Friend is applied externally to the abdomen, stomach and breasts, relieves all pain, avoids all nausea, and prevents sickness of the breasts.

It is quickly and wonderfully penetrating, permits the muscles to expand without the strain on the ligaments, and prepares the system so thoroughly that the crisis is passed almost without the slightest distress. Thus there need be no such thing as dread or fear.

No better nor more cheering advice can be given the expectant mother than to suggest the use of Mother's Friend. She will take courage from the beginning. The days will be cheerful, the nights restful. Thus the health is preserved, the mind is in repose and the period is an unending one of quiet, joyful anticipation.

You can obtain Mother's Friend of any druggist at \$1.00 a bottle. Do not forget to be supplied with this greatest remedy ever devised for motherhood. It is unfailing. Write at once to Bradfield Regulator Co., 150 Broadway, New York City, for their very interesting and instructive book of advice for expectant mothers.

handsome Mexican to one of the girls.

GOES TO JAIL.

Manuel Moulton was held to answer yesterday by Justice Summerfield. The defendant was charged with threatening to kill Paul Kretek, a neighbor. But when he got on the stand he refused to state positively that he still is in fear of bodily harm from Kretek. Upon motion of defendant's attorney the complaint was thereupon dismissed. The trouble arose over a cranky pump.

CASE IS DISMISSED.

After hearing the testimony Justice Young dismissed the case against Alfred Costello yesterday. The defendant was charged with threatening to kill Paul Kretek, a neighbor. But when he got on the stand he refused to state positively that he still is in fear of bodily harm from Costello. Upon motion of defendant's attorney the complaint was thereupon dismissed. The trouble arose over a cranky pump.

HELD TO ANSWER.

James Henry Mann, colored messenger for the Commercial National Bank, was held to answer to the Superior Court yesterday by Justice Summerfield, following a brief preliminary examination. The case showed that the defendant was given various warrants to cash. It was alleged he failed to make proper returns. His alleged embezzlement, according to yesterday's evidence, was about \$940.

YOUTZ IS HELD.

Insurance Concern's Secretary Must Answer Charge of Making False Statement of Assets.

Joshua E. Youtz, secretary of the Merchants and Insurers' Reporters Company of this city, was held to answer to the Superior Court yesterday by Justice Reeve. The defendant was charged with making a false statement concerning the assets of the company. Youtz furnished \$5000 bond for his appearance in the Superior Court.

The evidence tended to show that the company purchased the stock of the Bankers' Fire Insurance Company of Arizona in order to do a fire insurance business. The stock was worth \$200,000, according to several appraisers and statements it was valued at \$400,000.

A number of well-known local men have stock in the Merchants and Insurers' Reporters' Company and they express faith in its solidity. They declare that if any error was made it was purely technical.

BABY ABANDONERS HELD.

Miss Annie Patterson and Millard Stephens, who abandoned "Baby Steele" in a San Pedro-street rooming-house two weeks ago, were arraigned in University Court yesterday on a charge of child abandonment, and their hearing set for Friday.

They were remanded to the City Jail in default of bail.

No Need To Have

Superfluous Hair

(The Modern Beauty.)

In delatone, a simple way has been found to remove hairy growths from the face, neck, or arms, and one application usually is sufficient to permanently banish every trace of disfiguring hair or fuzz. This treatment consists in applying a paste made with water and a little of the powdered delatone. After remaining on two or three minutes rub it off and wash the skin, and it will be white, firm and hairless.

Short, straight eyelashes will grow long and have a silken sheen and delightful curl if proxin be applied at last-roots with thumb and forefinger. This eyebrow cream is thick and lustrous by rubbing on proxin every day. Use care and don't get anywhere where no hair is desired.—[Advertisement.]

A.B.A. Cheques

The simplest, safest kind of "Travel Money"

Money matters in traveling would be simple if you could use American money throughout the world; they would be safe if you could use your check book everywhere.

"A.B.A." Cheques practically enable you to do both. They are the equivalent of \$10, \$20, \$50 and \$100 bank notes and require your signature to make them good. Each cheque is engraved with its exact foreign money value.

You can use "A.B.A." Cheques like cash anywhere abroad or in the United States, without conversion into cash. Hotels everywhere welcome them as bills. The best shops accept them. Steamship lines know they are as good as gold.

Signing one of your "A.B.A." Cheques is like cashing 50,000 banks throughout the world. You can cash them without further introduction. They are good with full information regarding them, at your bank.

Next week we shall publish in this paper a list of the institutions in this district which are prepared to supply you with "A.B.A." Cheques.

AMERICAN BANKERS TRAVELERS CHECKS
